6. PRICE ADJUSTMENTS

Autocar's fiscal 2007 service parts price revisions became effective December 1st, 2006 and superseded all previous prices. This adjustment is our general year end amendment based on supplier pricing adjustments as well as material cost increases which have taken place throughout the year; however, some service parts have in fact been lowered to ensure our prices remain as competitive as possible. Also, please note EPC (Electronic Parts Catalog) monthly subscription fees will be affected at this same date. Autocar price tapes will be available through ADP and Karmak for subscribers to these services. If you have any questions or if you're not using Karmak or ADP and would prefer an Excel version instead, please contact **Patrick Avery @ (765) 220-0128**, pavery@autocartruck.com. Next update will be around midyear 2007
