2. WILLIAMS CROSS – OVER RELAY

IT HAS COME TO OUR ATTENTION THAT WILLIAMS HAS HAD MULTIPLE FIELD ISSUES ON PART #A1330005-001. WE HAVE A TECHNICAL SERVICE BULLETIN OUT STATING THAT PART #A1330005-001 NEEDS TO BE REMOVED AND REPLACED WITH PART #S1330100-001 (#134224). THE BULLETIN ALSO CONTAINS INSTRUCTIONS ON HOW TO REPLACE THE THROTTLE CROSS-OVER RELAY. WE ALSO WOULD LIKE OUR DEALERS TO KNOW THAT WE ARE NO LONGER SELLING THIS PART AND ARE ASKING ALL DEALERS THAT ARE STILL CARRYING STOCK TO PLEASE BE ADVISED TO RETURN IT. IF YOU HAVE ANY QUESTIONS REGARDING ANY PART OF THIS PLEASE CONTACT OUR AUTOCAR TECHNICAL SUPPORT @ 877-973-3486.

3. TURN SIGNALS

WE NOW OFFER AN UPGRADE IN OUR TURN SIGNAL LAMPS FROM INCANDESCENT LAMP TO AN LED LAMP. THE PART NUMBERS FOR THE INCANDESCENT LAMPS ARE 20359241 AND 20359242. 4. NEW INSULATION KIT

AS A PRODUCT IMPROVEMENT, AUTOCAR'S "PRODUCT RELIABILITY GROUP" HAS DESIGNED AN INSULATION KIT FOR THE EVAN'S TEMP CON IN DASH HVAC UNIT INTRODUCED IN 2004. IN SOME CLIMATES, CONDENSATION FORMS ON THE OUTSIDE OF THE BOX DUE TO COOLING THE INSIDE OF THE PANEL WHILE THE OUTSIDE IS EXPOSED DAMP UNTREATED AIR. THE PRE-CUT INSULATION PIECES INSTALL INSIDE THE HVAC BOX. THE INSULATION KIT HAS ALSO BEEN IMPLEMENTED INTO PRODUCTION ALONG WITH SEVERAL IMPROVEMENTS TO THE HVAC BOX DRAIN SYSTEM.
